

Information for conference

The Management Board of the Polish Association of Patients with MPS and Rare Diseases is organizing the International Conference on Rare Diseases entitled «Patients with rare diseases - our priority» for the eighteenth time.

Conference: the conferences organized by us have permanently become part of the international calendar of educational meetings, attracting numerous participants from all over the world. The conferences organized so far have resulted in experiences being shared, establishment of new professional relations and cooperation between Polish and foreign scientific and medical communities. A significant group among them consists of world-renowned scientists, experts representing international centres and organizations dealing with rare diseases and the providing medical services.

The conferences we organize are aimed at: expanding knowledge, learning about and understanding rare diseases, they also offer the opportunity to exchange experiences and conduct joint projects and research. Often, making a diagnosis requires a lot of consultation and advice of colleagues. Assistance in carrying complicated biochemical and genetic tests is highly important during this process.

Every year, we invite outstanding specialists and scientists from all over the world to the conference in order to provide information on the latest achievements in the field of rare diseases, arouse passion and integrate this extremely rare and special group of physicians and patients so as to – using our own experiences – act jointly to improve the quality life of patients with super rare diseases.

The conference participants will be provided with the following:

- ✦ participation in conference sessions,
- ✦ conference publications and materials,
- ✦ brochures and information on rare diseases,
- ✦ educational credits for physicians and laboratory diagnosticians,
- ✦ professional simultaneous interpretation in three languages,
- ✦ participation in case studies and patient consultations (facultative),
- ✦ participation in events organized by the members of the Association,
- ✦ accommodation and meals: coffee breaks, breakfasts, lunches, dinners.

The conference is organized and supported free of charge by: the patients in the care of the Association, their guardians, volunteers and friends.

The guests of the 18th International Conference On Rare Diseases are kindly requested to submit, as soon as possible, their registration forms, which will enable us to book accommodation in neighboring hotels (hotel rooms are booked by the organizer).

The lecturers of this year's conference are kindly requested to submit **the registration form, a biographical note, a photograph and an abstract of their lecture** by **1 May 2020 at the latest, to the following e-mail address: biuro@chorobyrazadkie.pl.**
